

DREAMLAKE SPECIALS

Mainline fresh/frozen and shelf-life boilies

DreamLakes are returning to being a boilie only water.... well ok, we may permit a few artificial baits eg. rubber or plastic corn etc. but all pellets & particles e.g. carp/trout/salmon/halibut pellets, maize, sweetcorn, hemp, tiger nuts, peanuts as well as maggots and groundbaits are strictly prohibited.

This should help safeguard the welfare of our fish, protect the water and environment and ensure more productive fishing.

Please be sure to comply with our bait policy, as anglers who break the rules will be asked to leave DreamLakes immediately.

You may order your bait here - all at special DreamLake prices!

To help preserve your bait, we recommend that you air dry fresh/frozen bait during the course of your holiday - simply lay your bait out in the sun or breeze using either a carp sack or air-dry bag.
